

16th December 2019

Dear Parent/Guardian,

As you are no doubt aware, the Maths Department have all Year 7 and Year 8 students using an online program called Sparx. This had been hugely successful with the vast majority of students using the program to complete the work. This work is proving very useful in consolidating the work completed in class. After the Christmas holiday we will making a push to recognise the students who put the most time and effort into this work, i.e. those who go the extra mile.

Just a reminder that the program adjusts the questions based on the answers the student gives. It is therefore very important that the student completes the work by themselves so the program can provide questions at the correct level.

Occasionally students get stuck, or may not be able to complete work at home. So, to that end, here is a list of all the opportunities students have to complete their work using computers. I have also included notes of when there will be a maths teacher around to give them some help.

Please get in contact with me or your child's maths teacher with any questions.

Yours sincerely,

Phil Humphrey
Associate Assistant Principal
Teignmouth Community School

Homework Catch-up Opportunities

Library:

Break and lunch every day
(except Friday)

CAL:

Homework Club: Tuesday
and Thursday from 3:15 -
4:15

W8 (Maths Room)
