

Technology and Art Lockdown Newsletter

Hello from us all.

We hope that this finds you well, safe and enjoying the time at home with your families. As a team we have been keeping in touch regularly and video calling each other. It's a really odd situation to find ourselves in but it's for the best and we will eventually get to see each other again. We look forward to working with you all again whenever that may be.

We have all been working hard to make sure that you all have work to complete at home. Although it can be difficult working from home, all we ask is that you just do your best. Sometimes it can be harder for practical subjects like ours as we just want to make and create and this can sometimes be more challenging than the more paper based subjects. But if you get the opportunity to do any creative then please photograph it and send it into us as we have a 'Lockdown Gallery' which is updated weekly. You may have seen this on the school website.

<https://www.teignmouthsecondary.co.uk/lockdown-creativity-continues/>

We have all been working hard from home, but like you we have been enjoying the time doing other things. Keep reading to see what we get up to in our spare time.

Stay Safe and enjoy the extra time doing the things that you love. Keep clapping for our NHS and remember we'd be lost without them. Love Team Tech and Art xx

Miss Edwards

Whilst organizing the team Miss Edwards has been making the most of the glorious weather and spending as much time allowed to enjoy the fresh air and scenery. Poppy, her lively Springer Spaniel is currently living her best life with long walks and lots of love and attention. These pictures here are taken at Plymbridge and Haybrook bay which is handy to drop off shopping to Miss Edwards mum and dad.

Miss Redfern

During her time at home Miss Redfern has been working very hard using her sewing machine and sewing scrubs and masks for the NHS. Miss Redfern has two dogs and one cat. The dogs have loved the extra walks and enjoyed the company however the cat has taken full government advice and has social distanced throughout and is looking forward to the quiet days at home alone again.

Mrs Wilson

During lockdown Mrs. Wilson has been working hard to build on new animation skills ready for a new photography unit. The Wilson family have enjoyed lots of bike rides and long walks made all the better because of the sunshine and spending lots of time in the garden. We have played lots of games, watched films and maybe gone to bed a bit too late. The art team have marked all of the GCSE books and under strict distancing rules all marks have been submitted. We are proud of you all xx

Mr Hawker

Mr Hawker has been really busy throughout the time at home. His grandchildren are really lucky to live in another part of his house so they have been able to see each other as well as his daughter. They have been making planes, spent lots of time at the beach and he has even been commissioned to make a stained glass window. Note he has also had time to grow a beard and the departmental WhatsApp group agreed that he should keep it.

Mrs Kevern

Herbert Kevern, Mrs Kevern's crazy working springer spaniel would have found lockdown very difficult as would the rest of the family as he requires long walks to burn off all of his energy. Mrs Kevern has been enjoying the beach whilst walking Herb and Mules Park. She has also been painting and drawing of which she is amazing at. See for yourself.

Mrs Robinson

Mrs Robinson has been really busy throughout making sure that she is feeding her creative mind. She has been experimenting with clay, glazes and using natural forms to create some beautiful pieces. Mr Robinson has also got involved by helping to collect wild garlic whilst they have been out walking which they used to create wild pesto. They have of course had the company of their cat Milo who never leaves their side and although is very much loved cannot seem to keep his paws off the art work. Did you know that Mrs Robinson also makes her own jewellery?

Mr Willis

Life in lockdown has been a testing experience for Mr. Willis, but as you can see the stress hasn't affected him much!!!!!! What you see below is an example of how much time Mr. Willis has on his hands in-between helping his son with his school work!!!!!!

Miss Ousley

Lockdown has meant that Miss Ousley cannot spend time with Mr Hussey although they understand it's for the right reasons. However she has enjoyed having BBQ's in the garden with her housemate and loving the walks on the beach with Chloe (princess) the dog. Some of you might have seen Miss Ousley in school where she has been doing some exciting projects using prints, clay and about to embark on a large project to go on the wall in the corridor. Watch this space.....
