

Biscoff Rocky Road

INGREDIENTS:

400 g of white chocolate

A BIG dollop Biscoff spread

$\frac{2}{3}$ packet of Biscoff biscuits

$\frac{1}{2}$ bag of mini marshmallows

METHOD:

1. Melt the white chocolate in the microwave in a microwaveable bowl (put it in the microwave for 30 seconds at a time, mixing every 30 seconds, until you have just a little bit of solid chocolate left; it will melt!)
2. Stir in the Biscoff spread, until all mixed through.
3. Break the biscuits into pieces and mix into the chocolate.
4. Mix in the mini marshmallows
5. Pour into a tin/on to a tray lined with parchment paper – you could make individual ones in cupcake cases if you would prefer.
6. Top with a few extra marshmallows.
7. Pop in the fridge to set
8. Cut up and enjoy!
You will need help cutting up the rocky road as you need to use a sharp knife. If you cut it up when it still hasn't fully set, or leave out the fridge for a while before doing so; it will be easier to cut.
