

What are we going to do?	Timescales	So that...
<p>Be very clear about our vision and values – ensure that they underpin everything we do (staff and students):</p> <p>Be the Best Version of You!</p> <p>Work Hard: Never Give Up</p> <p>Be Kind: Care for Each Other</p> <p>Join In: Develop and Grow</p>	Summer Term and ongoing	... the culture for all at Teignmouth Community School is one of participation, resilience and support so that we can all be the best that we can be.
Develop subject leadership: redesign curriculum pathways and the sequence of learning using evidence-based research about how effective learning takes place (primarily informed by the work of Mary Myatt).	January 2023 – September 2023	... all students follow a broad and ambitious curriculum that is sequenced in such a way as to ensure good outcomes for all.
Use instructional coaching to develop every teacher's practice. Not because they are not good enough but because we can all always be better. (Supported by the Steplab model)	May 2023 and ongoing	... the quality of classroom practice is always improving.
Create clarity around our holistic provision by extending the scope of our Careers' Lead to include more aspects of personal development and link our PD aims to our core values.	May 2023 and ongoing	... young people have every opportunity to develop into the best version of themselves and, in so doing, become effective citizens of the future.
Dramatically improve the educational experience of disadvantaged students and those with educational needs by providing quality first teaching and only withdrawing students from the main curriculum to take part in appropriate, effective and tracked interventions.	September 2023	... all young people access an ambitious curriculum and are appropriately supported to succeed.
Further raise expectations of young people and hold them to account for their attitudes and behaviours (both inside and outside the classroom).	May 2023 and ongoing	... all young people take responsibility for their choices, lessons are disruption-free and all students feel safe.

Create a reading culture through daily reading for all and evidence-based, targeted intervention for struggling readers.	September 2023 and ongoing	... all students are fluent readers and appreciate the value of reading.
