- Use of lighting and exposure, shutter speed and aperture
- Composition rules in photography
- Investigating contextual sources
- Recording and developing ideas
- Realise intentions making visual connections
- Analysis of photographers work to support contextual study
- Developing digital editing software skills

**Year 9**

**Cultural Masks**  
Exploring African culture and patterns with design and 3D work

**Printmaking**  
Exploring political and portrait street art using editing software and 2D press printing techniques with contextual analysis

**Abstract Portraiture**  
Introducing Abstract artists and producing influenced portraits with artist analysis

**Year 10**

**Portrait Photography**  
Discovering and analysing portrait photographers and learning relevant skills

**Functional Skills**  
Introducing functional skills and essential photographic knowledge

**Pattern and Texture**  
Highlighting patterns/textures in nature working practically with digital equipment combined with external visit

**Year 11**

**GCSE Photography**

**Exam Project**

Explore, investigate, develop and realise intentions leading to practical timed exam using acquired skills

**Independent Project**  
Explore, develop and realise intentions using photographic techniques

**Functional Skills**  
Exploring technical aspects, rules, skills & photographers for a wide range of photography techniques

**Year 12**

**A Level Photography**

**Year 13**

**Building Portfolio**  
Themed project to explore, investigate, develop and realise intentions building on prior photographic knowledge

**Exam Project**

Art based themes to explore, investigate, develop and realise intentions leading to practical timed exam using acquired skills

**A Level Photography**

**Written Assignment**

Contextual study: Assignment exploring an Art/Photography based topic of choice using analysis and prior knowledge
